

INOX
COLLECTION

External Inox Grade 316 Stainless Steel available in both black and Stainless Steel finish

Our range of stunning Inox glazed doors combine the high-performance of GRP composite materials with beautiful aesthetics to give a truly contemporary look to any entranceway.

PERFORMANCE

Manufactured using a 44mm Composite door slab combining 2mm GRP outerface, a laminated timber sub-frame and CFC Polyurethane core, our doors are guaranteed not to warp, twist or shrink and come with a 10 year warranty. Composite doors also offer the highest level of thermal efficiency and intruder resistance on the market today.

Internal glass encapsulated within door skin for flush finish

STYLE

Our Inox Doors use finely grained 316 grade stainless steel glazing frames which as well as adding a distinctive European flair are guaranteed to keep their high shine and stunning looks for years to come. These Inox frames can be combined with a selection of beautiful, modern decorative glass options which complement the door style. All our glass options are encapsulated in a triple glazed unit which as well as giving industry leading thermal efficiency are also easy to clean.

We offer a range of different glazing styles with our Inox Glazing system, from the simplicity of the Munich, to the sweeping style of the Barcelona, with many in between.

All of our Standard and Painted colours are available on grained or smooth doors*

*Special Stains are not available on Smooth doors or Colourmatch Grained frame | **All door styles may not be available in 'Standard' due to availability however the door can be painted to the closest RAL of the standard colour | ***Premium colours come in already extruded as the specified colour not requiring painting. This is not possible when colourmatch frame has been chosen or on certain door designs | ****Available as a premium finish in some door designs, check our door builder for availability | Colours are for visual representation only, printing practices may cause colour variation.

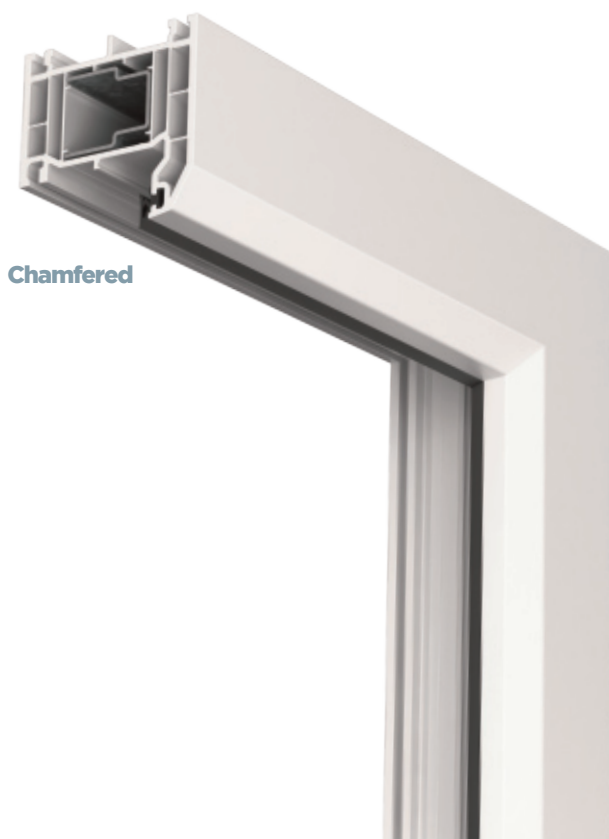

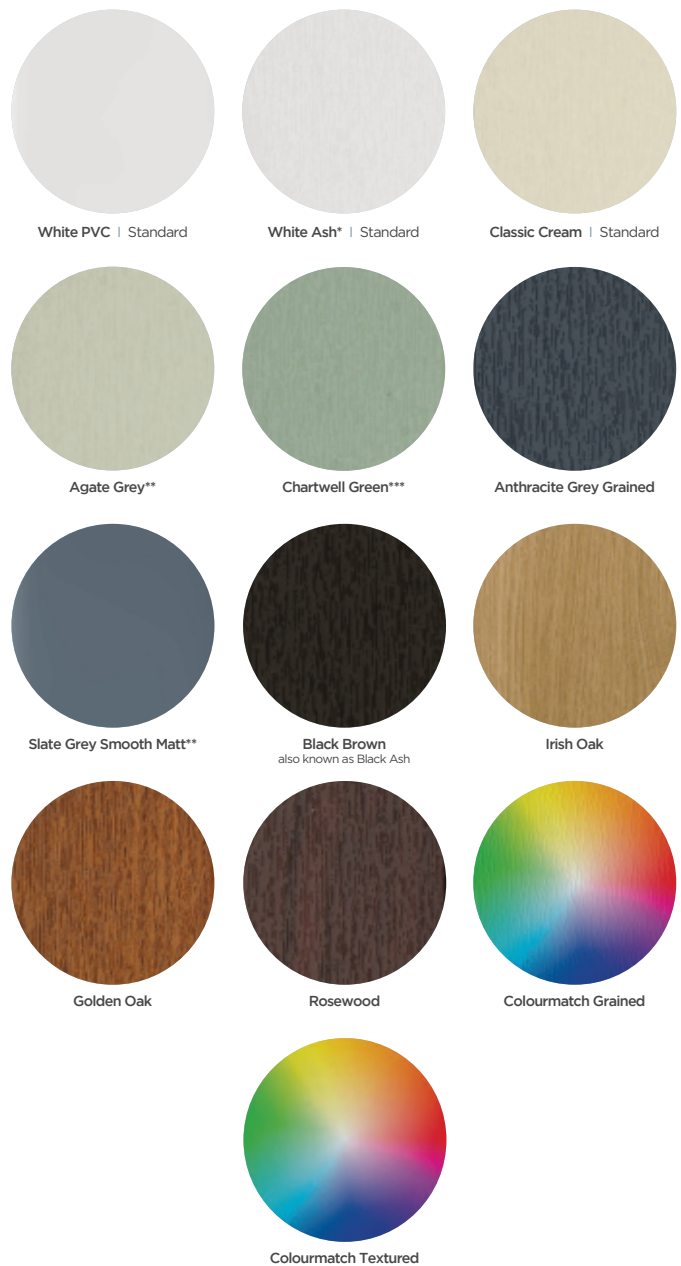

PROFILE COLOUR OPTIONS

At Entrance® we offer a wide selection of profile colour options along with the option of Ovolo for the traditional sculptured look or Chamfered for a more modern, clean look of frame styles.

Choose from our Standard Frame Colours shown on this page, all of which are foiled (excluding the White PVC and Colourmatch Smooth option), or opt for your door and frame to be painted the same colour at the same time to give your house the grand Entrance® it needs.

Colourmatch Textured Frame Option - A lightly textured finish on a smooth frame to perfectly compliment our smooth door collections. If white is chosen on inside it will be our standard white PVC frame.

Colourmatch Grained Frame Option - A painted, pre-foiled frame to give a grain effect and painted and or stained at the same time as the door to ensure a colour match.

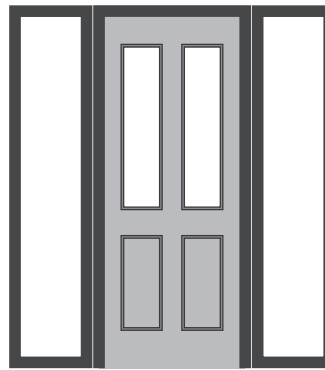

*Available on both sides only
 **Available on 1 side only in Chamfered
 ***Available on 1 side in both Chamfered and Ovolo

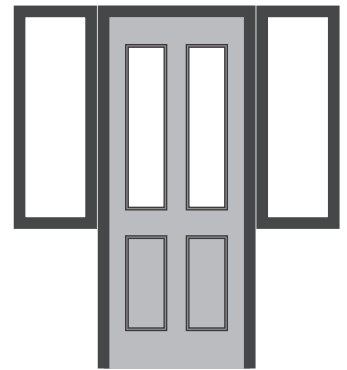

SIDELIGHT & TOPLIGHT OPTIONS

Our Multipart Frames can be used to create grand entrances, with multiple glazing areas surrounding your door

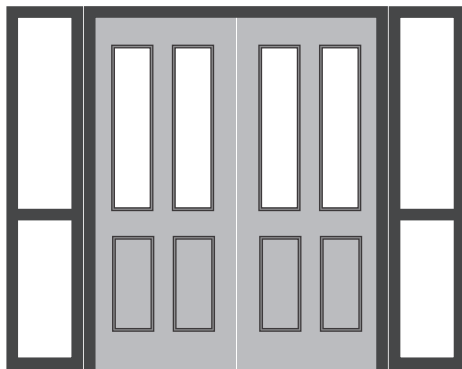

We offer a range of glass options to complement your Inox door glass including a range of obscure glass patterns and our bespoke Numbered glass.

AV4 AUTOLOCK

Derived from the industry leading AV2, the newest member of the Winkhaus AutoLock family has a new hook design which dramatically widens the operational tolerances, increasing the life of the lock operation against outside factors and has a 40% reduced operation forces compared to the AV2.

The optional Daylatch features an easy to operate switch which can be flipped between automatic locking and re-entry without a key. This is most useful to know that your family is secure, but by the flip of a switch located in the centre keep of the frame you can easily push the door open if nipping out to get groceries from your car or if the kids are playing in the front garden.

A contemporary lock to perfectly complement the modern look of the Inox door collection, with key operation to gain access to the property along with a selection of bar handles.

The AV4 automatically engages when the door is closed to secure your family home, with the new and improved feature of the Daylatch to allow easy access to your home without a key.

For additional security at night the AV4 can be deadlocked at night by turning the key anti-clockwise engaging the deadbolt in the centre of the door. The AV4 had been tested to and is compliant with PAS24:2022 and approved by the Secured by Design Policing initiative through Winkhaus UK.

The AV4 is available in our contemporary hardware with hip height key operation, or as Heritage with shoulder height key operation.

SECURITY AT YOUR FINGERTIPS

New Features

- Push Notifications to smart phone with each entrance to your home
- Unlock your door remotely
- Set up new users with app that logs all activity
- Bar handle with integrated scanner
- New, smaller scanner design for sleeker appearance

23

The ultimate in convenience and security, our NEW D-Line Ekey Biometric readers use fingerprint technology to allow you to enter your home.

With over 6 billion people in the world, your fingerprint is unique and you always have it with you so why not use it to enter your home. No more need for keys in your day-to-day routine, this simple yet effective system can be used by up to 100 people, each programming in up to 10 fingers. With Bluetooth controls and simple programming via your smartphone, this truly is the lock of the future, available now.

The technology constantly re-learns you finger every time you use it so families with growing children are catered for and you never have to worry about leaving your home unsecure, being locked out or even losing keys. The New Ekey Scanner is available as a scanner mounted to the door at shoulder height beside your choice of bar handle, or no handle on the outside if you prefer.

Brand NEW to the Entrance range is the Ekey Integrated within the bar handle, where the scanner is embedded in the pole of the bar handle with no need for a separate scanner.
